DEGREE COMPLETION PROGRAM LAUNCHED

The screenshot shows a web browser displaying the NDSU Career and Advising Center website. The browser's address bar shows "career-advising.ndsu.edu". The website has a dark green header with the NDSU logo and navigation links: "Handshake", "Navigate", "Career Outcomes Survey", "Guests", "Log in", and "Sign up". Below the header is a white navigation bar with links: "EXPLORATORY AREAS", "ACADEMIC ADVISING", "CAREER SUPPORT", "INTERNSHIP PROGRAM", "CAREER FAIRS", "EMPLOYERS", and "ABOUT". The main content area features a large image of three students working on laptops, with the text "DEGREE COMPLETION PROGRAM" overlaid in yellow and white. Below the image, the page title "Degree Completion Program" is followed by the question "What is it?". The text explains that the program is for adults with some college credits who want to finish their bachelor's degree. It then asks "Who is eligible?" and lists four requirements: not holding a prior bachelor's degree, not being enrolled in an institution for at least 2 years, earning at least 60 credits, and having a minimum 2.0 GPA. Next, it asks "What classes can I take?" and explains that students can either return to their original degree path or work towards a Bachelor of University Studies degree, with the latter offering more flexibility. It also asks "What scholarships are available?" and lists four opportunities: Degree Completion Scholarships, Balance forgiveness, Osher Reentry Scholarship, and Crankstart Scholarship.

DEGREE COMPLETION PROGRAM

Degree Completion Program

What is it?

NDSU's Degree Completion program is for adults with some college credits who are looking to use their prior credits and return to school to finish their bachelor's degree. Students are able to take classes on campus or online depending on their needs.

Who is eligible?

Students must qualify based on the following requirements:

- Students who do not hold a prior Bachelor's degree
- Students who have not been enrolled in an institution for a minimum of 2 years (24 consecutive months)
- Students who have earned a minimum of 60 credits
- Students who have a minimum 2.0 Cumulative Grade Point Average

What classes can I take?

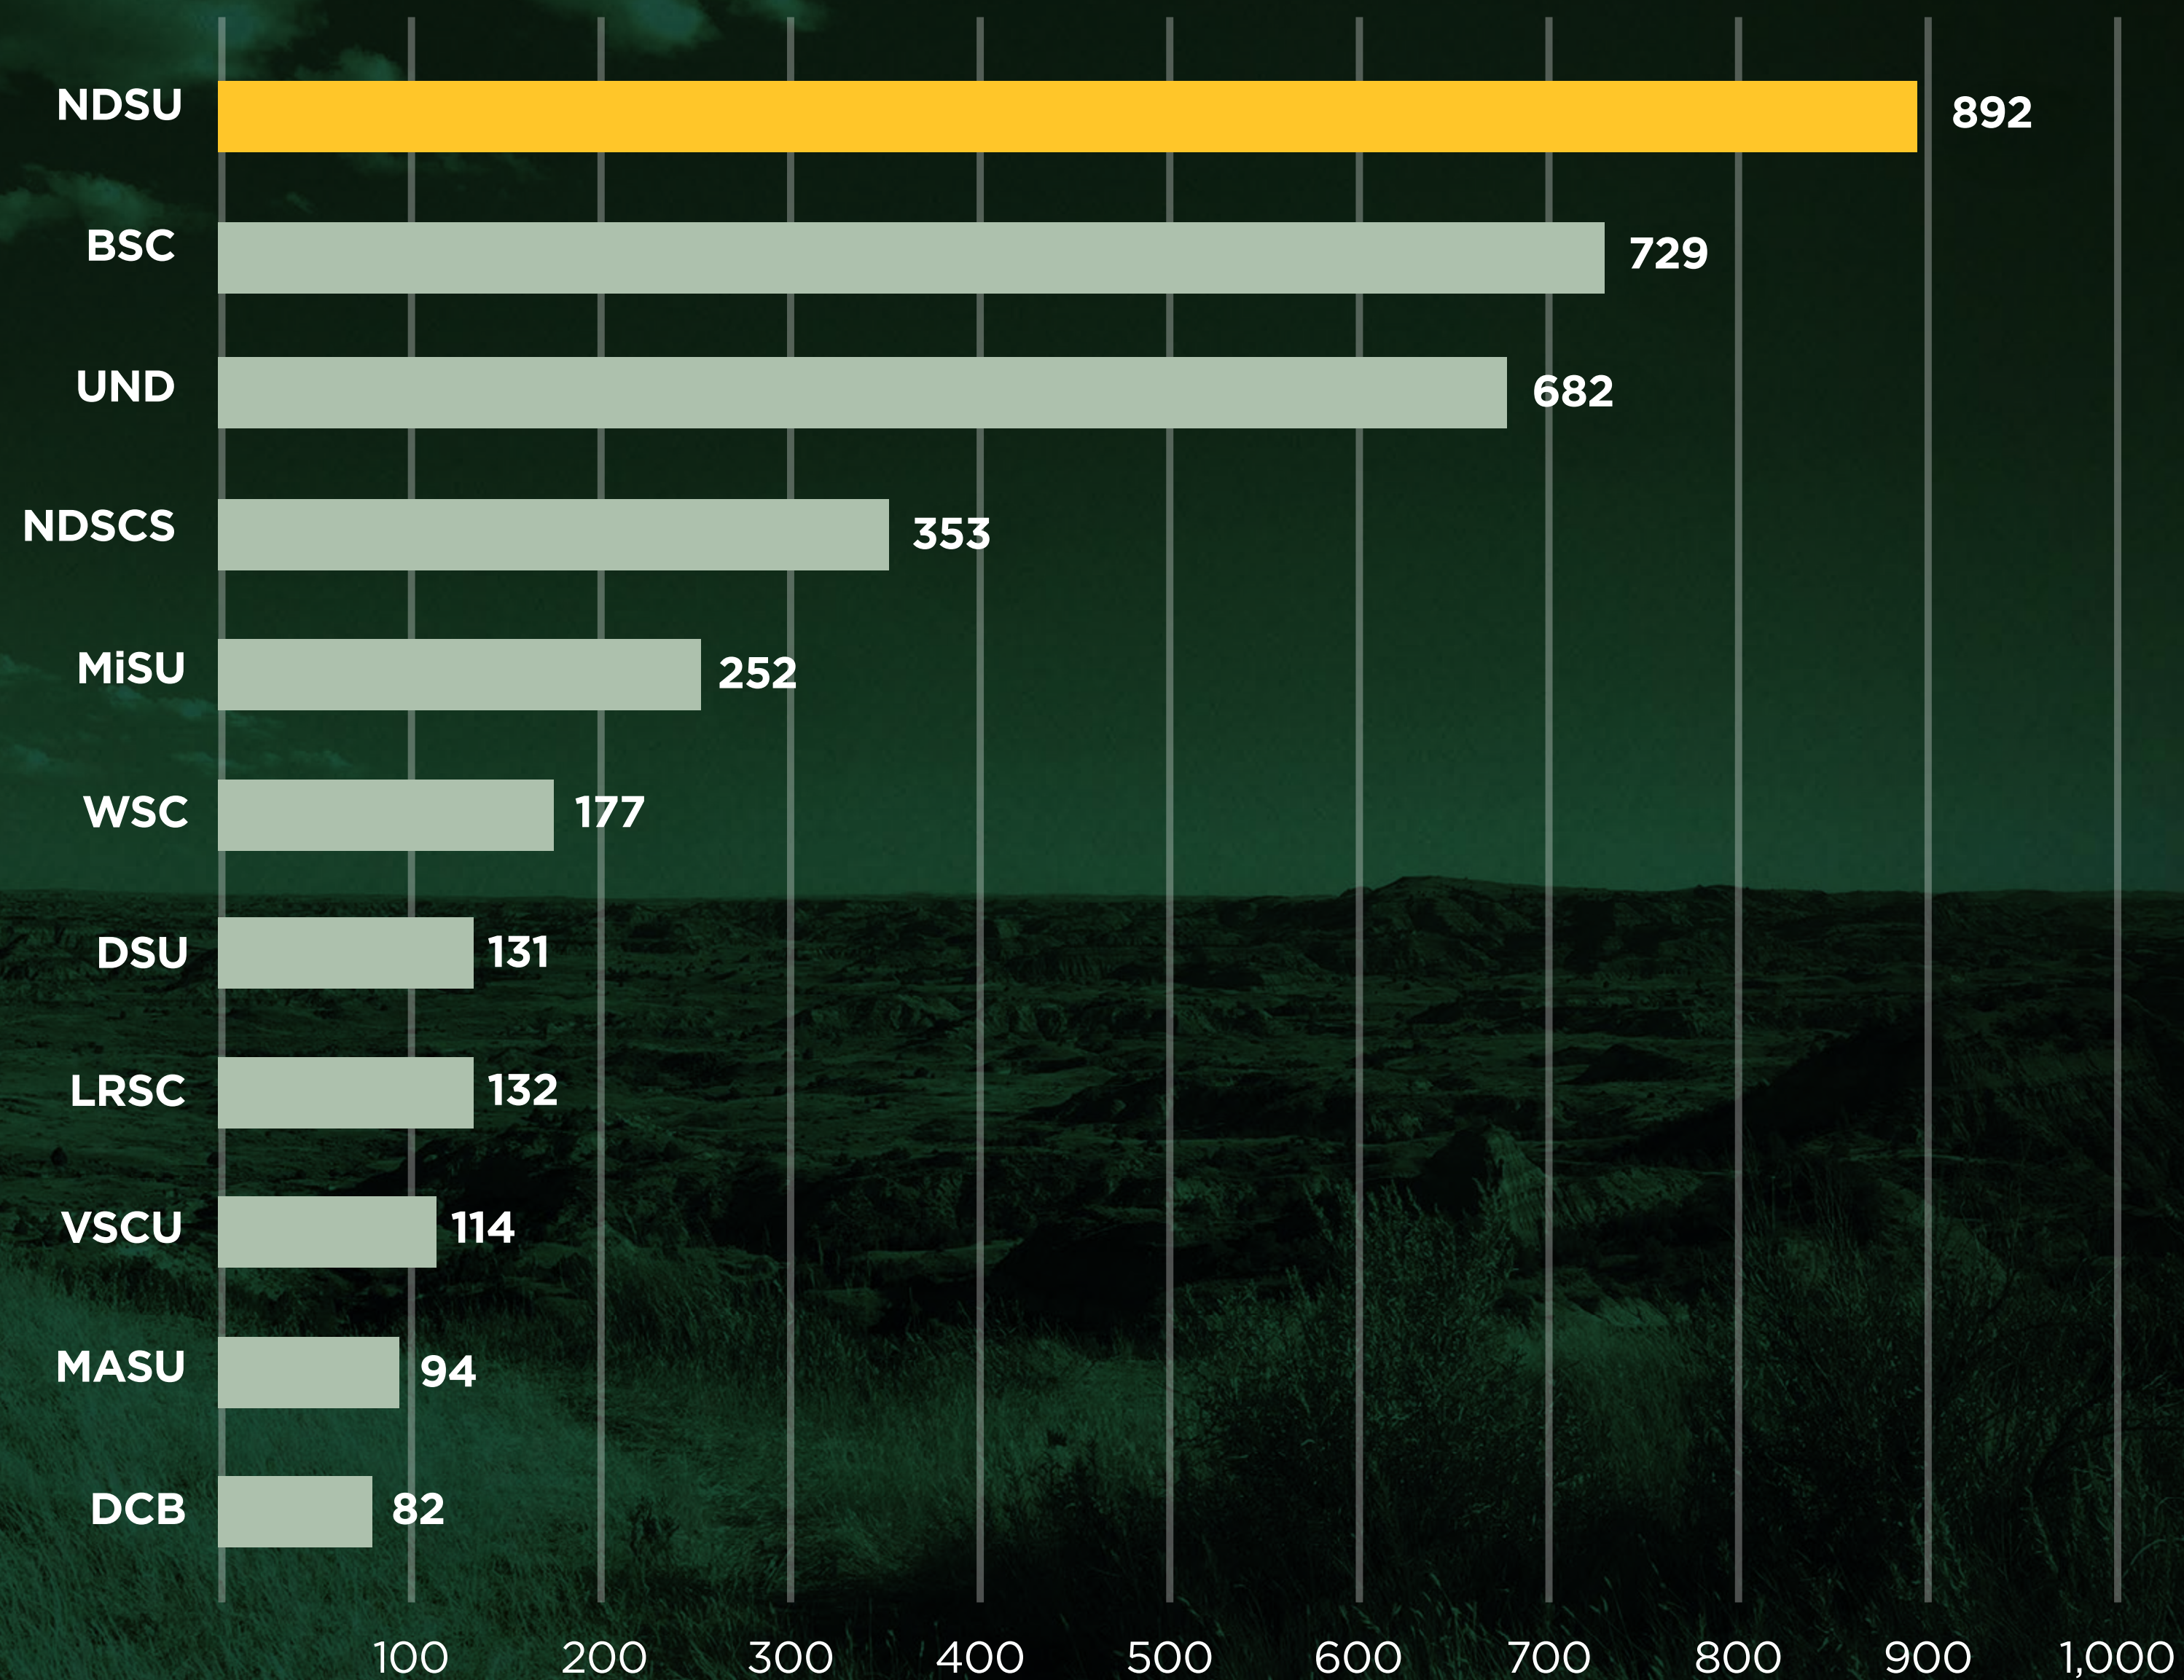

Students who qualify have two options to finish their degree. They may return to their prior degree path to finish their original degree or students work towards a [Bachelor of University Studies degree: General Studies Option](#). This option allows students the most flexibility in choosing course options, while maintaining the rigor of a traditional bachelor's degree. Students may choose to take courses online or in the classroom and will work with an academic Advisor in the Career and Advising Center to understand remaining course requirements.

What scholarships are available?

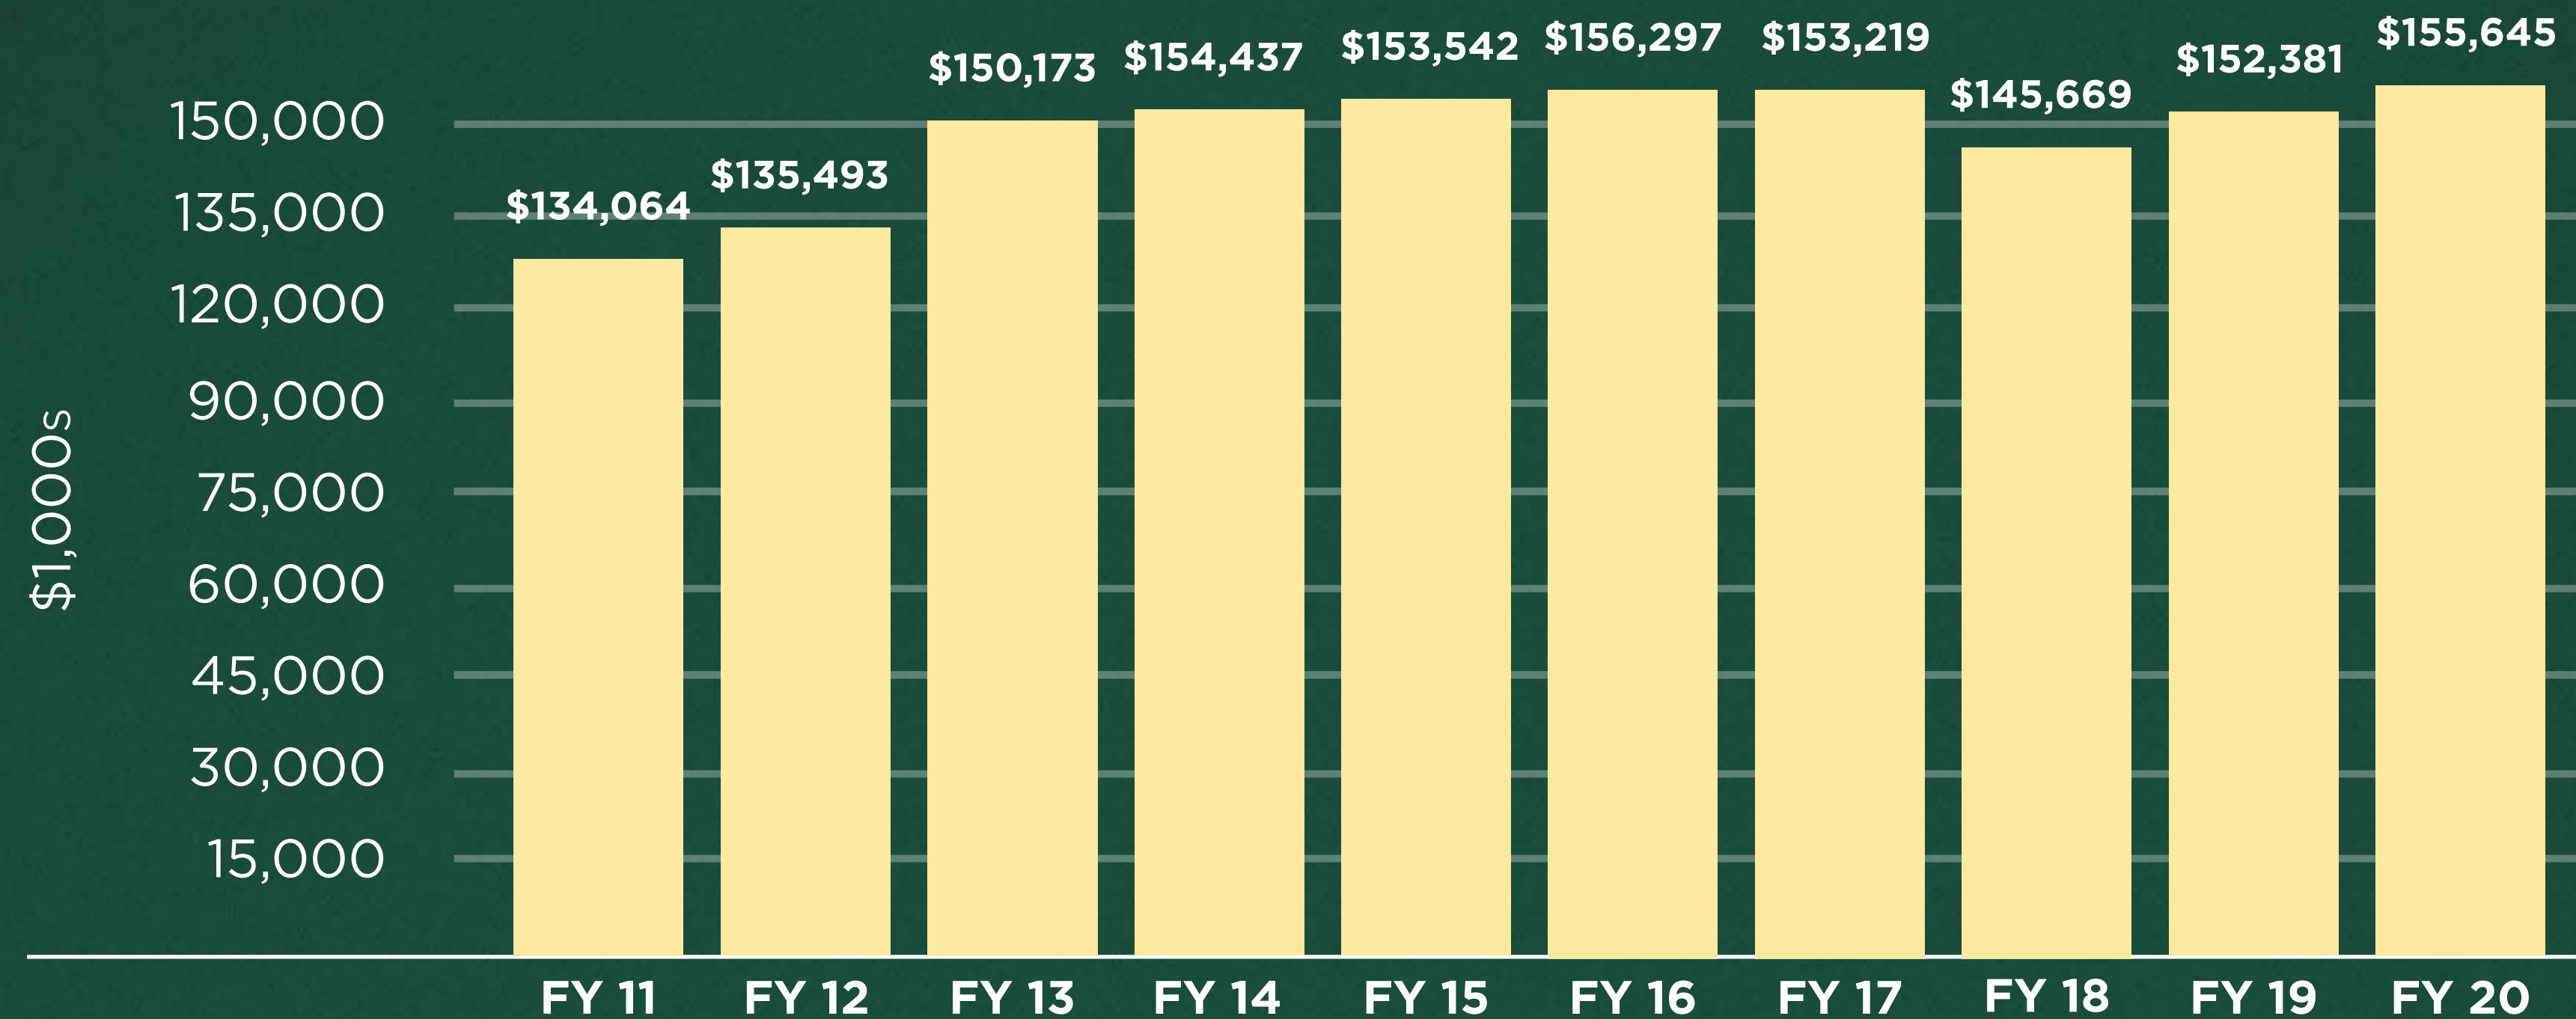

There are several opportunities to get help with the cost of finishing your degree! Scholarships dollars are available ranging from \$1,000 to \$5,000 for students who have taken a break from their education.

- Degree Completion Scholarships for students within 6 credits of graduation
- Balance forgiveness for students in the Degree Completion program (application coming)
- Osher Reentry Scholarship (apply [here](#))
- Crankstart Scholarship (apply [here](#))

RESEARCH EXPENDITURES

The background is a dark teal color. It features faint, hand-drawn chemical structures, including long hydrocarbon chains, carbonyl groups, and ester linkages. In the lower right corner, there is a faint, dark silhouette of a laboratory setting, showing what appears to be a piece of equipment or a workstation.
